EXPERIENCE

Weights & Biases (W&B), machine learning developer tools San Francisco, CA
Technical Content Writer / Project Manager Feb. 2021 - Feb. 2023

- Researched and wrote beginner-friendly content about machine learning, including one of W&B's top five top-of-funnel content pieces in H2 2022.
- Helped generate over 2k leads and 16k page views by creating and editing product-focused content marketing assets, such as blog posts, white papers, and one-pagers.
- Produced 44 episodes of Gradient Dissent (interview podcast about machine learning), growing average 30-day listens by 140% during the first year.
- Developed, implemented, and managed branded merchandise operations for developer giveaway campaigns, new employee welcome boxes, conference swag, and event marketing materials.

PCIBex, open source online experiment builder Remote
Technical Writer (volunteer) July 2020 - Jan. 2021

- Created a new Jekyll and GitHub Pages website to replace original WordPress website.
- Standardized element and command reference pages. Created templates for future pages.
- Restructured quick start guide into a task-oriented manual and a project-based tutorial.
- Wrote product documentation, including tutorials, user guides, reference guides, and sample code.

UCLA Language Processing Lab Los Angeles, CA
Lab Manager Sept. 2019 - June 2020

- Trained and mentored undergraduate research assistants. Prepared biweekly lab schedules.
- Wrote code for online psycholinguistic experiments and post-experiment data analysis.
- Refactored inefficient R scripts for eye tracking analysis, reducing code length by up to 60%.

UCLA Department of Linguistics Los Angeles, CA
Teaching Assistant (Linguistics 20: Introduction to Linguistic Analysis) Sept. 2019 - Dec. 2019

- Created weekly handouts to review important concepts and explain common misunderstandings.
- Improved joint office hour sections after organizing and collecting student feedback.
